

## REQUEST AND RECOMMENDATION

### ONE YEAR OPTION

#### 600- 699 Clock Hour Programs – Business Administration Technology

#### Background:

To provide another option for adult students to apply prior learning toward a degree, Ohio legislators established what has come to be known as the One-Year-Option through Section 363.120 House Bill 59 of the 130<sup>th</sup> General Assembly. The Chancellor of the Ohio Department of Higher Education, in consultation with the Superintendent of Public Instruction and the Governor's Office of Workforce Transformation, was tasked to establish a One-Year Option credit articulation system in which graduates of Ohio's adult career-technical institutions who complete a 900-hour program of study AND obtain an industry-recognized credential approved by the Chancellor will be able to receive 30 technical semester credit hours toward a technical degree upon enrollment in a public institution of higher education. The Chancellor was also to recommend a process to award proportional semester credit hours for adult career-technical institution students who complete a program of study between 600 and 899 hours AND obtain an industry-recognized credential approved by the Chancellor. The Chancellor convened a broad group of stakeholders to develop a system of articulation for the One Year Option that was presented in a report to the legislature called, *"Getting to 30: Establishing a One Year Option Credit Articulation System for Ohio."*

In order to implement the system of articulation developed with the stakeholders as well as address accreditation requirements for degree granting institutions, the Chancellor convened Credit Affirmation Teams (CATs) to conduct a peer review of programs and certifications for affirmation for a block of 30 semester hours of technical credit. The CATs were comprised of faculty and administrators from Ohio Technical Centers (OTCs) and an equal number from public degree granting colleges and universities in Ohio. The CATs were organized by four discipline clusters: Health and Allied Health, Building and Industrial Technology, Business and Information Technology, and Services. They were charged with reviewing the certifications and, if necessary, program content, to affirm that students completing the selected program at an Ohio Technical Center and earned approved certifications had demonstrated competencies equivalent to technical credit. CATs affirmed that programs over 900 hours, articulated to a block of 30 technical credit hours. For programs between 600-899 credit hours, the review resulted in a proportional amount of credit hours being awarded. This technical credit would then be granted, as a block, upon enrollment in a degree granting institution. Additional subject matter experts were consulted when core team members did not have sufficient content knowledge of the program being reviewed.

## Recommendation

As detailed in the attached template, the Business and Information Technology Team recommends that students will be eligible for a block of 20 semester hours of technical credit towards an *Associate of Technical Studies in Business Technology* when:

- the student has successfully completed a 600- 699 clock hour program in Business Administration Technology at an Ohio Technical Center.

**And** currently holds **ONE** of the following credentials:

- successfully complete competencies in either Microsoft Office Specialist (MOS)
- successfully complete competencies in the Internet and Computing Core Certification (IC3)

**And** successfully completed the following 10 OPAC tests in the following 5 areas:

<b><u>Area</u></b>	<b><u>OPAC Test</u></b>
Keyboarding/Data Entry	<ul style="list-style-type: none"><li>• Keyboarding</li></ul>
Clerical	<ul style="list-style-type: none"><li>• Alphabetic Filing</li><li>• Numeric Filing</li><li>• Proofreading 1</li></ul>
Computer Applications	<ul style="list-style-type: none"><li>• Editing/Formatting from a rough draft</li></ul>
Customer Service	<ul style="list-style-type: none"><li>• Customer Service: Telephone</li></ul>
Financial	<ul style="list-style-type: none"><li>• Bank Deposit</li><li>• Bank reconciliation</li><li>• Basic Math</li><li>• Petty Cash</li></ul>

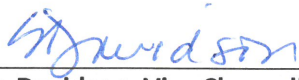

\*\*OPAC Test Description can be found at the following link: <http://www.opac.com/office-skills-test-descriptions/>

Please note all credentials must be current, valid, and in good standing.

### **Preamble:**

The Business and IT Credit Affirmation Team reviewed curriculum and associated credentials for the program area, Administrative/ Office Technology. With subject matter experts and representatives from Ohio Technical Centers and Community Colleges, the group surveyed credentials associated with 600- 699 hour programs. Credential preparation and competencies from similar technical courses at Community Colleges were reviewed.

The consensus of the team was that three credentials are available to use for the Administrative/Office Technology area. In most cases multiple credentials are attained by students completing the programs. However, the credentials for IC3, OPAC (Office Proficiency Assessment and Certification) and Microsoft Core meet the rigorous standards necessary for affirming credit and are represent the core competencies needed in the Business Administration program area. Thus, it is the recommendation of the team that a student, who completes a 600-699 hour program and meets the below credentialing pathway should be granted 20 technical hours towards an Associate Degree of Technical Studies.

**\*\*Important note:** It is the intent of the Ohio Department of Higher Education to review the list of credentials regularly, but because the Administrative Office field may experience frequent updates, the credentialing bodies may have modified some of the exams listed. If any of the listed credentials are updated, please consider the amended credential as eligible to satisfy proof of student competency.

### **A student must meet the following credentialing pathway:**

Student must obtain as certification as either:

- Microsoft Office Specialist (MOS) core subject matter expert
- OR
- Internet & Computing Core (IC3) certification

And successfully completes the following 10 OPAC tests in the following 5 areas:

<b><u>Area</u></b>	<b><u>OPAC Test</u></b>
Keyboarding/Data Entry	<ul style="list-style-type: none"><li>• Keyboarding</li></ul>
Clerical	<ul style="list-style-type: none"><li>• Alphabetic Filing</li><li>• Numeric Filing</li><li>• Proofreading 1</li></ul>
Computer Applications	<ul style="list-style-type: none"><li>• Editing/Formatting from a rough draft</li></ul>
Customer Service	<ul style="list-style-type: none"><li>• Customer Service: Telephone</li></ul>
Financial	<ul style="list-style-type: none"><li>• Bank Deposit</li><li>• Bank reconciliation</li><li>• Basic Math</li><li>• Petty Cash</li></ul>

**One-Year Option**  
**Certification Affirmation Template**

*The Program Affirmation Template is designed to provide a common matrix for a peer review process acceptable to the Higher Learning Commission to soundly affirm awarding technical credit for Ohio Technical Center graduates who are eligible for the One Year Option. The template should be completed for every program/subject and signed by the co-chairs of each of the four cluster program areas for every Industry-recognized credential and program reviewed.*

*Please note: All Ohio Technical Centers must be accredited by one of the following: [Council on Occupational Education \(COE\)](#) and/or [Accrediting Commission of Career Schools and Colleges \(ACCSC\)](#).*

regarding the skills and knowledge required of an entry-level IT professional.

- 3) Microsoft Office certifications are administered at Certiport Authorized Testing Centers and are primarily delivered in computer-based format to increase security & better maintain up-to-date content delivery.

Taking the reliability of the exam, rigor of the program, and the review of content, the Business and IT Credit Affirmation Team believes that obtaining credentials as either a Microsoft Office Specialist (MOS) core subject matter OR an Internet & Computing Core (IC3) certification and successfully completes at least 5 OPAC credentials following the completion of a 600- 699 hour Ohio Technical Center program to be equivalent to a block of 20 technical hours for the One Year Option.
